

EMMANUEL NII ARYEEQUAYE ELI OKINE

Accra, Ghana | 22 Hibiscus St • 0504336608 • emmanuel.okine@ashesi.edu.gh •
LinkedIn

Senior Software Engineer & UI/UX Specialist focused on architecting high-performance systems and full-stack AI solutions. Proven track record leading end-to-end product lifecycles in fintech, logistics, and education with a deep emphasis on scalability and quantitative impact.

EDUCATION

University of Cambridge – PACE

Sept 2025 – July 2026 (In Progress)

Data Science with Machine Learning & AI Career Accelerator

Ashesi University College

Jan 2022 – July 2025

BSc. Computer Science

PROFESSIONAL EXPERIENCE

iSmart International Ghana

Sept 2025 – Present

Frontend Lead / Senior Software Developer

- Led frontend development for **iSmartPay**, processing over **800,000 GH¢** in transaction volume.
- Architected a custom financial reporting engine with automated PDF generation and real-time disbursement status tracking.
- Maintained **99.9% uptime** for critical P2P transfer and authentication systems using React Query and intensive Sentry monitoring.
- Optimized database performance and UI latency for high-frequency transaction logs using Java and MySQL.

Fleet Logistics Systems

Jan 2025 – July 2025

Lead Frontend Developer

- Architected a centralized dashboard for real-time tracking of **500+ vehicles**, reducing telematics latency to **<200ms**.
- Developed a Canvas-accelerated map interface for high-density vehicle node visualization.
- Reduced annual maintenance expenses by **15%** through a predictive maintenance scheduling and alert system.
- Integrated WebSocket-based state management for live fuel consumption and driver safety analytics.

Jayee University College

Oct 2023 – Dec 2024

Software Engineer (Contract)

- Built a multi-step admissions portal handling **10,000+ annual applications**.
- Reduced manual processing time by **80%** by automating document validation and status notifications.
- Implemented a stateless form engine with local persistence and **Zod-driven schema validation**, achieving **<1% error rates**.

Product Management Insight (London, UK)

- Gained exposure to the product lifecycle of global financial index products and benchmark positioning.
- Analyzed market trends and index methodologies, contributing to product strategy discussions.

SELECTED ENGINEERING PROJECTS

Sign Language Recognition System (Python, MediaPipe, Keras)

- Built a real-time system achieving **91% accuracy** across 26 hand signs using deep learning.

NHIS Staff Portal (React, Tailwind CSS)

- Designed and engineered a benefits portal for **12,000+ staff**, streamlining employee benefit selection.

Customer Churn Prediction (Python, TensorFlow, Streamlit)

- Developed a MLP deep learning model with **91% accuracy** for telecom churn forecasting.

TECHNICAL SKILLS

Frontend Ecosystem: React, Next.js, TypeScript, Tailwind CSS, Zustand, Framer Motion, Vite

Backend & Data: Node.js, Express, Java, Python, SQL, PostgreSQL, Prisma, MySQL

AI & ML Research: TensorFlow, Keras, scikit-learn, MediaPipe, OpenCV, Pandas, NumPy

Design & DevOps: UI/UX Design (Figma), GCP, Docker, Git, Vitest, CI/CD, Sentry

LEADERSHIP & ACTIVITIES

Member of Parliament Ashesi University Council	Jan 2024 – Dec 2024
Vetting Committee Member Judicial Electoral Council	Oct 2024 – Dec 2024
